MAXIMIZE YOUR VALUE: NEVCO INTEGRATED DISPLAY AND **SCORING SOLUTIONS FOR EVERY AUDIENCE**

From marguees and message centers to video displays and scoreboards, Nevco's innovations allow for flexibility and integration to keep you informed, aware and entertained. We're proud to be such an integral part of communities everywhere. No matter the message, no matter the sport, no matter the campus, customer or congregation, we can show you all the ways that your system can work for you.

MAXIMIZE YOUR IMPACT

BUSINESS:

Your system can be customized to deliver specific information and reach customers with relevant messages like special offers, promotions, brand messages, featured products, etc. Our commercial clients utilize integrated signage as a key component to increasing business.

PLACE OF WORSHIP:

Don't miss your opportunity to convey an important message to current members of your congregation or to attract potential new members to be part of your services.

BUSINESS APPLICATIONS

- Street-side marguees
- Lobby signage
- Waiting area displays
- Sales/promotions
- Employee of the month
- Promote services offered
- Highlight products offered
 - Community events
 - Upcoming entertainment
 - Time and temperature

PLACE OF WORSHIP APPLICATIONS

- Upcoming events
- Volunteer opportunities
- Service times
- Messages to the community
- Mission statements
- Motivational messages

 \int

- Holiday schedules
- Highlighting an upcoming speaker
- Wedding announcements

SCHOOL CAMPUS:

No matter the size of your campus, you can deliver key information to your students, faculty, parents and passers-by.

CAMPUS APPLICATIONS

• Upcoming events

Weather advisories

• Educational tool

- Reminders Sponsor messages
- Holiday schedules
 - Emergency announcements
 - Teacher of the month

School closing

• Parent communication

SPORTS FACILITY:

Reaching your audience in several locations is a perfect way to make sure they come away with the important details and information that you want to communicate. You can also utilize your system to generate revenue for your school by promoting your sponsors' messages.

LED BILLBOARDS:

Increase revenue by converting to digital and turn good locations into great locations. Nevco manufactures a full line of industry standard billboard sizes making conversion easy. Nevco also custom manufactures to any unique outdoor display size requirement.

ED BILLBOARD APPLICATIONS

- Third party advertising
- Day part advertising
- Amber alerts
- Time / Temperature Support local charities

News headlines Weather updates / warnings RSS / Data feeds Sponsorship opportunities Self promotion

SPORT APPLICATIONS

- Street-side marquees
- Entrance/exit signage
- Fan excitement
- Local sponsorship
- Communicate events
- Ticketing displays
- Concession area boards
- Player information/profile
- Live statistics
- Upcoming games

NEVCO LARGE VENUE SOLUTIONS

Are you ready to give your fans that big-league experience? Do you want to maximize revenue? Don't know where to begin? Contact your Nevco Display and Scoring Consultant to get the conversation started!

WHY CHOOSE NEVCO?

Experience -

- For nearly 80 years, Nevco has provided the industry with some of the most innovative display and scoring solutions.
- Today, Nevco scoreboards, message centers and video displays are used to enhance the fan experience at events in more than 100,000 locations around the world.
- Some of the largest video scoreboards, including the largest football video scoreboard in the world of high school sports (Carthage High School, Carthage, TX) have been designed and built by Nevco.

Quality -

- Nevco is known in the industry for making products that last. (We even have some customers still using Nevco scoreboards manufactured over 30 years ago.) Nevertheless, Nevco includes a 5-Year Guarantee on our products at no additional charge, and extended warranties are also available.
- Our company has one of the lowest costs of warranty service in the industry, which means that our customers rarely need to call us for warranty repairs.
- When you compare other products to Nevco's, pixel for pixel, you find you get more for money with Nevco. For video displays, Nevco video uses real pixel technology not shared or virtual pixels which gives you a brighter, more vibrant picture. Nevco scoreboards use true-size digits (18" digits are actually a full 18 inches tall) with more pixels in our digits and indicators than other competitors. This Nevco quality gives you a higher quality image and a better looking display and scoring solution.

Turnkey Project Management -

- Nevco's time-tested and proven project management process defines roles and responsibilities, so everyone clearly understands their part. From the factory to the installers, from electricians to IT, everyone is on the same page.
- While every project has unexpected bumps, the Nevco process minimizes delays, helping you complete your project on time and on budget.

8000 SERIES

VIRTUAL SCORING

The 8000 Series with virtual scoring is the latest technological innovation from Nevco. The 8000 Series is offered as both a full matrix virtual scoring option and as a hybrid virtual scoring option. For the ultimate experience in both impact and flexibility, contact your Nevco Display and Scoring Consultant to discuss how Nevco's 8000 Series with virtual scoring can give your venue maximum impact.

FULL MATRIX VIRTUAL SCORING

Nevco's full matrix virtual scoring solution is the perfect choice for facilities that entertain multiple sports. Compared to traditional scoreboards, full matrix virtual scoreboards offer the ability to display more sports-specific information for all sports played at the facility.

PLUS

Full matrix scoring offers the flexibility to communicate important events, excite your fans, highlight players, display statistics and promote sponsors. All of this functionality is offered as a one-piece installation.

VIRTUAL SCORING OPERATION Nevco's virtual scoring solutions are designed to be both easy to install and easy to operate. Once the system is installed, all it takes is a quick click of the mouse to easily toggle back and forth between important scoring data in the scoreboard mode, to the in-game instant message function to excite the fans, or to the advertising playlists to promote your sponsors. VSBI Controller 59.9 104 PERIOD 4 FLS TOL PLAYER TOL FLS 4 4-33 2 10 Scoreboard Sports Composer Software

GET EQUIPPED

Put nevco.com to the test today. It was designed to equip and inform and is filled with all the important details you're after. You can view product specifications, imagine your own display and scoring solution, view other installations and increase your knowledge of LED technology. The ultimate goal of nevco.com is to equip you with the resources to maximize your impact.

HYBRID VIRTUAL SCORING

By combining an LED matrix with a full-featured traditional scoreboard, Nevco's hybrid scoring solution gives you the best of both worlds: full matrix virtual scoreboard flexibility at a traditional scoreboard price. Hybrid scoring offers you the flexibility to communicate important events, excite your fans, highlight players, display statistics and promote sponsors. All of this functionality is offered with the appearance of a one-piece installation.

UPGRADE TO HYBRID

Only Nevco offers hybrid scoring as an upgrade to your existing Nevco scoreboard. Ask your Display and Scoring Consultant how to upgrade your traditional scoreboard to a hybrid model.

NEVCO SCORERS TABLES

Nevco Scorers Tables offer a great opportunity for display advertising and graphics that get the crowd and players excited. The 3-in-1 scorers table can be upgraded from non-lit to rear-lit to LED quickly and easily using a cartridge-based system.

LED, TRADITIONAL, AND COMBINATION OPTIONS

The Nevco 3-in-1 Scorers Table is the most flexible scorers table solution on the market today. Additionally, the 3-in-1 table can grow over time by combining and interlocking with other 3-in-1 scorers tables to expand in to a longer, seamless table.

THE INDUSTRY'S ONLY UPGRADABLE SCORERS TABLE

3 OPTIONS:

- Non-Lit: basic non-lit image printed on impact resistant face
- Rear-Lit: brighter upgraded look using state-of-the-art LED backlighting
- LED: digital display with high resolution: 10mm SMD technology

CARTRIDGE-BASED CONCEPT:

- Take out non-lit cartridge and replace with rear-lit or LED cartridge
- Upgrade your table for a fraction of the cost vs. competition

EXPAND:

- Unique ability to add/combine options into seamless product
- Add on additional table segments at any time
- Mix and match table types: non-lit, rear-lit and LED segments
- Maximize customer options and budget

FEATURES & BENEFITS

- Upgradable (Non-Lit, Rear-Lit, LED)
- Expandable (8' or 10' sections)
- Proven, Unique Transport System
- Safe, secure rubber footings
- Heavy-duty steel and aluminum construction
- Industrial powder coat finish
- Integrated power strip and media wire tray
- Durable and lightweight
- Heavy-duty padding
- Multiple outlet power strip
- Moving messages get attention
- Variety of sizes to fit any budget
- Enhanced sponsorship opportunities
- Communicate important messages
- Crowd-exciting animations
- Wide viewing angle
- Adaptable for easy installation

MESSAGE CENTERS

Nevco designs message centers to complement every display and scoring solution. When a Nevco message center is installed with a scoring solution, you have the opportunity to significantly enhance the game experience for your fans, players, coaches and even your community. A Nevco message center also gives you more opportunities to increase sponsorships and ad revenue with virtually limitless ad space.

FOOTBALL

LACROSSE

BASEBALL

SOCCER

BASKETBALL

MESSAGE CENTER CONTENT

Nevco has a vast library of animations for multiple sports and business applications to be displayed on a Nevco message center. You also have the ability to easily create your own unique and custom animations with Nevco Composer software. Once you have your images, animations and content selected, then you can easily build a playlist to communicate your message.

ADVERTISING CONTENT

ANIMATION CONTENT

CUSTOM ANIMATIONS

Nevco can also help you easily create custom animations for your specific application by using the Nevco Composer software. Whether you want to start from scratch and build all of your own animations or just utilize the dynamic library of existing animations, you will be sure to wow your audience with your interactive Nevco display and scoring system.

NEVCO MARQUEE SIGNS

Nevco's LED Marquees provide the most flexible solution for advertising or conveying information to your community. Full color and monochrome (red or amber) displays capture your viewers' attention and can help promote upcoming events, convey weather advisories, or share other important information. Like Nevco scoreboards, Nevco marquee products are designed with high-quality LED technology built to last approximately 100,000 hours, which reduces energy costs and requires little or no maintenance.

NEVCO COMPOSER SOFTWARE

Nevco LED technology is powered by our proprietary Composer software designed to simply insert your text and graphics on your LED Display. Nevco Composer makes operating your LED Display as easy as 1-2-3. Nevco marquees can be programmed remotely to display up to 2500 times more information than traditional static signage and can work 24 hours a day, 7 days a week.

Software Features:

- Proprietary Software Designed and Supported by Nevco
- Starter Library Includes Over 70 Animations
- Single-Click Graphic Import (.jpg, .gif, .bmp, .avi, etc.)
- Unlimited Amount of Stored Playlists within a Project
- Display Effects Include Checkerboard, Fly-ins, Flashing Text, etc.
- Instant Message Capabilities
- Displays Date, Time, and Temperature
- Advance, 365-Day Scheduling of Multiple Message Schedules
- Adjustable Brightness Level and Automatic Photosensor Dimming
- Proof of Performance Log
- · Zoom, Crop, Move and Resize Images
- · Combine Graphics and Text
- Category/Library Management
- Pixel Calibration Utility
- Automatic Daylight Savings Time
- Single-Screen Administration Options

EASY AS 1-2-3

STEP 1: COMPOSE

To compose your playlist, enter any text that you want to display and select its appearance and transitional effects. Easily display date, time, temperature, animations and even your own graphics.

STEP 2: PREVIEW

You have composed your playlist, now click one button to preview. Content will appear exactly as it will on your Nevco display.

STEP 3: TRANSMIT

Easily transmit your playlists to Nevco displays via direct cable or wireless control. Schedule your messages days, weeks, months or even years in advance. Set dates, times, nightdimming options and more!

MULTI-SPORT SOLUTIONS

MULTI-SPO

Some of the best players are known for their ability to cross over from one sport to another and excel in everything they do. These athletes can be like having two players in one. Nevco's multi-sport scoreboards provide similar versatility and value. These scoreboards can change from one sport to another at the push of a button. From basketball to volleyball, football to soccer or lacrosse or field hockey. If you play more than one sport on the same field or in the same gym, a Nevco multi-sport solution can be like getting up to **six scoreboards for the price of one**!

BASKETBALL PRODUCTS

The Nevco scoring and timing interface for Stat Crew® software sends game and season statistics directly from the Stat Crew software to a Nevco matrix display. This significantly reduces the operating requirements while increasing the game experience for players, coaches and fans by showing official game stats on Nevco displays throughout the venue.

The Nevco 3-in-1 Scorers Table is the most flexible scorers table solution on the market today. Available with interchangeable non-lit, rear-lit and full color LED displays. Additionally, the 3-in-1 table can grow over time by combining and interlocking with other 3-in-1 scorers tables to expand in to a longer, seamless table. See page 10 for more information.

Small and Lightweight Control Perfect for Smaller facilities or to Operate Auxiliary Scoreboards. Convenient wireless operation within 1000'. Operates multiple scoreboards simultaneously. System allows multiple controllers to link to a single scoreboard. Operates on two AA batteries and includes a built-in battery indicator. Built-in wireless strength meter and internal antenna.

Size: 3.25x5.5x.875" (0.08 x 0.14 x 0.02 meters) Digit Size/Color: Bright 32 characters LCD display Approx. Hanging Weight: 5.5 oz (.16 kg)

Most Game Information. The best option when vertical space is limited in a larger facility.

Size: 20' x 5' x 8" (6.10 x 1.52 x .20 meters) Digit Size/Color: 18" / 13" Super Bright Red and Amber Approx. Hanging Weight: 300 lbs (136 kg) Controls Available: MPC (Wired, Wireless) Caption Types Available: NL (shown), RL, ETN

MODEL 2700 UPGRADE

Upgrade your existing scoreboard (Model 2700) to a full-featured, hybrid, multi-sport scoreboard. Only the Nevco 2700 allows you to upgrade your scoreboard over time, at your pace, as your needs change and as your budget permits.

Full Feature Upgrade Component. This upgrade enables your scoreboard to display Time Outs Left and additional, sport-specific statistics.

- Basketball: Fouls, Player and Time Outs Left (TOL)
- Volleyball: Won, Game and Time Outs Left (TOL)
- Wrestling: Match and Weight

Electronic Team Name (ETN) Upgrade.

- Change team names easily and instantly
- · Perfect for tournaments or facilities with multiple teams
- No caption plates to change
- Field upgradable-no need to send back to factory
- Easy to install-no service visit required

Message Center Upgrade. The Hybrid upgrade enables:

- Enhanced scoring information for indoor sports
- Featured player profiles and stats
- Crowd-energizing graphics and animations
- Dynamic ads or sponsorships

- Promotion of up-coming events
- See pages 9 and 12 for more details on Message Centers, Hybrid Scoring and Upgrades

Only Nevco gives you the option to upgrade now or in the future. Our indoor scoreboards let you start with a basic scoring solution today and add on later to build your dream scoring solution at your own pace. While other vendors make you throw out your existing scoreboard to upgrade to a new one, Nevco products are built to be upgradable, so you can add on, instead of replace.

Basic Multisport. The perfect auxiliary scoreboard for small fields.

Size: 10' x 4' x 8" (3.05 x 1.22 x .20 meters) Digit Size/Color: 14" High Intensity Red or Amber Approx. Hanging Weight: 130 lbs (59 kg) Controls Available: MPC (Wired, Wireless), MPCX (Handheld Wireless) Caption Types Available: NL (shown)

MULTI-SPORT CAPABILITY

Most Nevco scoreboards can be changed to suit multiple sports by changing caption plates. The icons next to the model numbers show which scoreboards can be modified to support other sports. With so many options, it may be difficult to choose. The best way to select the board that's right for you is to **call your Nevco Display and Scoring Consultant**, who can walk you through all your options.

For large fields. Includes ball on, yds to go and time outs left.

Size: 18' x 8' x 8' (5.49 x 2.44 x 0.2 meters) Digit Size/Color: 24 Approx. Hanging Weight: 420 lbs (191 kg) Controls Available: MPC (Wired, Wireless), MPCX (Handheld Wireless) Caption Types Available: NL, ETN

Small and Lightweight Control. Perfect for smaller facilities or to operate auxiliary scoreboards. Convenient wireless operation within 1000'. Operates multiple scoreboards simultaneously. System allows multiple controllers to link to a single scoreboard. Operates on two AA batteries and includes a built-in battery indicator. Built-in wireless strength meter and internal antenna.

Dimensions: 3.25x5.5x.875" (0.08 x 0.14 x 0.02 meters) Digit Size/Color: Bright 32 characters LCD display Approx. Hanging Weight: 5.5 oz (.16 kg)

Segment timing features are ideal for any sport practice. Up to 40 programmable segments. Portable hand-held control allows programming independent of display. Lithium Ion Battery powered. 6+ hours of operation. Available in black only.

Dimensions: 26" x 24" x 9" (0.66 x 0.6 x 0.23 meters) Digit Size/Color: 18" or 14" Approx. Hanging Weight: 18 lbs. (8.16 kg)

DELAY OF GAME TIMER MODEL DGT-6

Perfect Accessory for the Field. Delay of game timer, easily viewed by the quarterback.

NEW!

MODEL 2780 / 2785 OFFERS OPTIONS TO DISPLAY WEIGHT, ADVANTAGE TIME OR "BLOOD TIME"

CONTROLLERS

Nevco offers a wide range of controller options to operate any past or present Nevco scoring solution. The controllers are designed for simplicity and can easily be programmed and operated for each sport through a sports-specific overlay.

CONTROLLER MPCW7

Advanced Universal Control Ideal for Larger Facilities.

The MPCW7 can be used for wireless and wired operation of Nevco scoreboards and has an operating range of 1,000+ feet. Hand-held time switch for starting and stopping the clock. Profiles feature retains user preferences and settings for easy reference. Segment timing, ideal for practice and drills. Sport-specific keyboard overlays included, and battery maintains time of day. All MPCW7 controllers are pre-programmed for your facility before leaving the factory: plug and play when received. Can be used interchangeably with MPCX Wireless handheld controller (below).

Dimensions: 11" x 9.5" x 4.125" (.28 x .24 x .10 meters) Approx. Weight: 3.75 lbs (1.59 kg) Display: Bright LED Keypad: Split and raised 40 key keyboard

• CONTROLLER MPCX

Small and Lightweight Control Perfect for Smaller Facilities

or to Operate Auxiliary Scoreboards. Convenient wireless operation within 1000'. Operates multiple scoreboards simultaneously. System allows multiple controllers to link to a single scoreboard. Operates on two AA batteries and includes a built-in battery indicator. Built-in wireless strength meter and internal antenna. Can be used interchangeably with MPC7 Wireless controller (above).

Dimensions: 3.25" x 5.5" x .875" (.08 x .14 x .02 meters) Approx. Weight: 5.5 oz (.16 kg) Display: Bright 32 characters LCD display Keypad: 12 key keyboard

GO WIRELESS

Nevco offers the flexibility to upgrade your existing wired scoreboard to a wireless scoreboard at any time. It's simple and low cost, plus as an added benefit your existing wireless controller will operate the Nevco scoreboard that you will be purchasing in the future. Nevco's wireless controllers are highly engineered to virtually eliminate outside interference and can also be operated at distances of more than 1000'. Contact your Display and Scoring Consultant to help you go wireless today.

4-Face 8' Basketball Scoreboard with Rear-lit Captions and Custom Signage

"The difference for us was the service and technical knowledge of our Nevco Display and Scoring Consultant. We felt comfortable that we were dealing with a professional and a company that would stand behind their product. The new scoreboard is not only beautiful, but the controls are easy to learn and operate."

JTM JACKSON Athletic Director Pratt Community College, Pratt, KS

CARRYING CASE for MPC

MPC (Wired, Wireless) Protective Case. Protect your controller in between games with a Nevco carrying case. Carrying cases are molded from impact-resistant plastic to perfectly fit and protect your Nevco MPC controller. The case also allows space to store the operator's manual and overlays.

Dimensions: 20" x 13" x 8" (.50 x .33 x .20 meters) Approx. Weight: 4.60 lbs (2.08 kg)

CARRYING CASE for MPCX

MPCX Protective Case. Protect your controller in between games with a Nevco carrying case. Carrying cases are molded from impact-resistant plastic to perfectly fit and protect your Nevco MPCX controller. Holds two MPCX controllers.

Dimensions: 12.5" x 8" x 4" (.31 x .20 x .10 meters) Approx. Weight: 1.45 lbs (.65 kg)

SOLAR POWER KIT

Nevco recognizes the need to preserve the environment and conserve precious resources which led to the development of the latest Nevco technological innovation: Nevco solar power kit.

If your facility is ready to go green or if electrical power just isn't practical, consider a solar-powered kit to supply power to your scoreboard. Solar power is available for multiple small baseball, football, soccer and multisport scoreboard models. Each Nevco solar power kit is specifically engineered to work with your scoreboard and designed for all weather conditions.

Plus, a Nevco solar kit may be a much more cost-effective option than running power lines to your soccer field.

Contact your local Nevco Display and Scoring Consultant to learn more about how your facility can implement this exciting and environmentally friendly technology.

ACCESSORIES

Nevco offers a wide selection of accessories to complement and complete your Nevco scoring solution. From delay of game timers to end of period lights, Nevco helps you maximize your impact while helping you meet all the rules and regulations for your sport.

Perfect for Multiteam Complexes or Facilities that Host Tournaments. Easily change one team name to the next. Program team names using the MPC (Wired, Wireless) controllers. Customize the team name for each team playing in your facility. Bright, longlasting, energy-efficient LEDs.

Note: ETNs are not available on some scoreboard models.

Customize Your Caption Plates. Replace "home" and "guests" caption plates with custom-printed team name or logo caption plates.

SCORBITZ[™] - REVENUE GENERATION AND STREAMING SCORES

Stream Scores to Mobile Devices. By adding a simple Nevco/ Scorbitz[™] gateway device to your Nevco scoreboard solution, you can automatically share your scoreboard data, time and score in real time with fans on their smart phones. You can also share your team's schedules with your fans so they know when to tune in. Plus, Scorbitz[™] can offer a new revenue stream for your athletic program through advertising in the app.

SIGNS

Nevco offers a wide range of signage options to let your opponents know that you mean business. Whether you want standard signs, arches, domes, rear-illuminated team or sponsor signs, channel letters or decorative trusses, Nevco will assist you in maximizing your school spirit.

Constructed of single thickness aluminum. Top and bottom edges bent for additional strength. Easily installed.

TYPE AD

Sign cabinet is the same depth as the message center or scoreboard. Adaptable mounting brackets are included for easy installation.

TYPE ADL

Bright illuminated sign for maximum visibility. Impact-resistant face. Sign cabinet is the same depth as the message center or scoreboard. Adaptable mounting brackets are included for easy installation.

• TYPE DOME

For a truly custom look, choose a Nevco dome sign constructed of aluminum for stability. Then maximize the impact of your dome sign by prominently displaying your team logo.

CUSTOM SIGN SIZES & TYPES AVAILABLE

Ask your Nevco Display and Scoring Consultants how a custom sign type or custom sign size could maximize the impact of your scoreboard. For more information, please call us at 1-800-851-4040 or e-mail info@nevco.com.

24' Football Scoreboard with Custom Signage

18' Football Scoreboard with Custom Team Name and Custom Signage

TYPE ARCH

For a sleek look consider adding a Nevco arch sign to your display and scoring solution. Arch signs can be mounted both above and below a scoreboard.

DECORATIVE TRUSSES / LETTERS / MASCOTS

For maximum impact add a custom decorative truss to boldly display your team name or logo. Speak with your Display and Scoring Consultant to learn more about making this impressive addition the perfect complement to your display or scoring solution.

4-FACE MODEL SIGNS - B-7 & WEDGE SIGN

B-7 bottom and wedge signs are available for all 4-Face models. If you want your 4-Face to stand out, custom printing is available for both types of these signs.

SCOREBOARD JERSEY - NEW!

Scoreboard Jerseys provide additional signage for your Nevco Scoreboard. Display Team/Facility names, logos, advertisements, sponsorships or other revenue-generating opportunities. Custom sized to fit the back of any Nevco scoreboard, our Scoreboard Jerseys are made of high quality vinyl for durability, and are quick and easy to install and take down. Custom sizes available.

PORTABLE SCORING SOLUTIONS

Add when space or resources are limited, Nevco's UltraScore is the perfect solution that provides versatility and convenience for your sports program. The UltraScore is the perfect solution for tournaments, practice fields and park and recreation facilities.

THE NEVCO COMMITMENT

NEVCO, INC. GUARANTEE

Nevco, Inc. scoreboards, marquees and message centers are guaranteed for a period of five (5) years* from the date of invoice against defects in workmanship or material and will be replaced or repaired without cost to the owner provided the equipment or parts (which includes LED segments) are returned postage-paid to the Nevco, Inc. factory. Guarantee shall be void if: any alteration or service, other than unplugging modules or controls, is performed without Nevco, Inc. factory authorization; or if the equipment has been connected to incorrect power, or is improperly grounded or improperly installed. Equipment which is subjected to accident, neglect, abuse, misuse or other natural disasters, including but not limited to: fire, wind, lightning, flood is not covered by this guarantee.

NEVCO, INC. EXTENDED WARRANTY

The customer may purchase, at their option, additional warranty coverage from Nevco that will extend the terms of the original Nevco Guarantee (above) for an additional period of 24 months. The Extended Warranty is available for all new, current model, indoor or outdoor scoreboards.

*Wireless components, Portable scoreboards and Solar Power Kit carry a two-year guarantee. Hand-held controls and switches carry a one-year guarantee.

The above Guarantee and Extended Warranty are effective as of the printing of this Catalog. Nevco, Inc. reserves the right to update or change the Guarantee and Extended Warranty without providing written notice. To view or receive the most current copy of the Guarantee and/or Extended Warranty, please visit our website at www.nevco.com or call 1-618-664-0360.

INDUSTRY STANDARDS

All Nevco display and scoring models are tested to ensure quality and design standards are met. In addition to internal testing procedures, Nevco may supplement the testing of any model by applying for one or more of the following designations:

A UL listing indicates the safety of the product has been independently examined and evaluated by Underwriters Laboratories and has earned the right to carry the UL mark. As part of the listing, the manufacturer must agree to and participate in periodic and unannounced factory inspections by UL to ensure standards are being met. A CUL mark indicates the product has been examined and tested by Underwriters' Laboratory to the National Safety Standards of Canada. A CSA listing is equivalent to the CUL mark. CSA listings are issued by CSA International. Many municipalities require one of these listings to meet building codes.

The CE mark is placed on products compliant to the New Approach Directives of the European Union. The CE mark proves to buyers that the product fulfills all the essential safety and environmental requirements as defined in the European Directives.

The FCC mark is placed on products compliant to the Federal Communications Commission standards. While wireless devices are required to be certified by the FCC, all electronic equipment must meet standards for limits on emissions of harmful radio interference. The FCC mark proves to buyers that the product fulfills all the essential environmental requirements. Industry Canada monitors and approves all wireless devices and electronic equipment sold in Canada.

The ROHS (Restriction on Hazardous Substances) standard limits the amounts of lead (Pb), mercury (Hg), cadmium (Cd), hexavalent chromium (Cr (VI)), PBDE (polybrominated diphenyl ethers), and PBB (polybrominated biphenyls). The ROHS standard was set forth by the European Union and adopted by the state of California.

SERVICE INFORMATION

If a service issue arises, it must be handled quickly and professionally. Because of the unique design of Nevco equipment, the majority of service issues can be handled through the use of our toll-free telephone service. To help resolve any service issue you may have, it is recommended the serial and model numbers be available when you call with or e-mail your request. For scoreboard controls, the serial number is located on the bottom of your control. On scoreboards, the serial number is located on the front of the scoreboard. The location of the serial number on marquees, message centers and video displays may vary by model.
