

LIMONTA | SPORT

DELUXE MIX BROWN

ELOO37TH

Product characteristics			
Pile height	mm	35	+/- 1 mm
Total length of tuft pile	mm	77	+/- 2 mm
Gauge		5/16	
Production method (DIN 61151)		Tufted	
Stitch rate per 10 cm.	nr	14,00	+/- 1 nr
Stitch rate per m2 approx.	nr	17.650	
Filaments per m2 approx.	nr	564.800	
Total weight	gr/m2	2.930	+/- 5 %
Perforation diameter	mm	5	+/- 1 mm
Number of perforations	nr/m2	90	
Water permeability (EN12616-requirements>360l/h)		>360 l/h	

Yarn characteristics			
Decitex	dtex	8.500	+/- 4 %
Composition		100% polyethylene	
Thickness	micron	120	+/- 4 %
Type		Straight monofilament	
Decitex	dtex	4.250	+/- 4 %
Composition		100% polypropylene	
Thickness	micron	95	+/- 4 %
Type		Curled monofilament	
Colour		Verde e Beige	
Total yarn weight	gr/m2	1.770	

Backing characteristics			
Primary backing		Polypropylene/fleese	
Primary backing weight	gr/m2	160	+/- 2 %
Backing		Latex	
Backing weight	gr/m2	1.000	+/- 5 %

Dimensions			
Rolls length	mt	25,00 or upon request	+/- 1 %
Rolls width	cm	390	+/- 2 cm

Recommended usage	
Landscaping	

Limonta Sport Spa, in accordance with its policy of development, reserve the right to alter above specifications without prior notice.

The recommended quantities of the infill materials can be varied according to their characteristics. We suggest to check them always by preliminary tests.

In the case that it is necessary to respect specific conditions to obtain certifications required by Sport Federations, please contact our technical department to define the types and quantities of infill materials.
